### BTA Tip:

There are four Premier Inn hotels at the airport which don't normally show up on comparison websites. These can frequently be the cheapest options. See our article on Premier Inns at Heathrow.

### Heathrow Zones

There are three main and two outlying zones. There is no reason why you cannot stay in a hotel in a different zone from the respective terminal. For example for Terminal 2 you could catch a bus to any of the hotels in the T5 or T2/3 zones or catch a train to a T4 zone hotel. The zones simply provide a visual overview.

## Overview

**Terminals 2 and 3** are in the centre of the airport and served by the Central Bus Station with clear direction signs. Buses from here run along the Bath Road to the north of the airport where there are over twenty hotels. Terminals 4 and 5 are linked by free train services. See [this article](#) for full details.

**Terminal 4** is to the south of the airport and, for those passengers, the likely best option will be one of four hotels linked to the terminal by a pedestrian walkway. Alternatively, catch the free Elizabeth Line train to the Central Bus Station at T2 and T3 for a bus to any one of over twenty hotels along the Bath Road along the north side of the airport.

**Terminal 5** is to the west of the airport and well served by local buses to hotels on the Bath Road, as well as those at Terminal 4

Below we break down the hotels into those physically at a terminal and those around the perimeter of the airport. Be aware that just because a hotel adds a terminal number to their name does not mean it is at that terminal. It can be a 20 minute bus journey away! The bus details tab on each hotel entry will give you the information you need. If you have a lot of luggage, we recommend using Uber.

# FAQs

## **What is the best budget hotel near Heathrow?**

There are a number of budget brands such as Premier Inns, Ibis brands or Thistle. Prices can be similar to higher category properties at times so worth checking thoroughly.

## **Do hotels run shuttles to the airport?**

Heathrow Airport does not typically permit hotels to run their own shuttle services. Hotel Hoppa bus fares are more expensive than local buses and journeys can be protracted.

## **Can I walk from the Central Bus Station to outside the airport?**

No, the central area is only accessible by public transport or a tunnel without pedestrian access. You'd need to take a bus, train or taxi.

## **Do hotels allow me to leave my car there while I'm away?**

Yes, several hotels offer fly-drive packages from time to time.

## **What is the typical cost of a night at Heathrow hotels?**

Typically £50 to £120 per night double occupancy. Rates of several hundred pounds are not uncommon with increased demand, so we suggest booking early.

## **Is it cheaper to get a hotel in London?**

London hotels are often more expensive than those at the airport.

## **Are there luggage storage facilities at Heathrow hotels?**

Most hotels will store luggage for you for short periods, usually without charge.

## **Which is the best hotel for viewing planes taking off and landing?**

The Thistle, is an older property but has a viewing deck outside the restaurant on the first floor (one level above ground and note there aren't any elevators). This overlooks the 09L touchdown zone and is ideal when winds are easterly.

Other good options include roof top restaurants at the Hilton Garden Inn T2/T3 in the centre of the airport or the Courtyard for 27R.
